Original language: English | PDF # 1 | File type: PDF | 528 pages

| It is intended to be used both as a text and as a reference. Particular emphasis has been placed on neutrality, and the book might well have been titled Functional Topology. The reader is not assumed to have prior knowledge of algebraic topology, but he is assumed to know something of general topology and algebra and to be mathematically sophisticated. | File size: 53.Mb

By Edward H. Spanier : Algebraic Topology sample chapters by title we are pleased to provide you with introductory chapters from many of our recent books listed below some files are in camilla valley farm weavers supply is pleased to offer hundreds of books on fibre arts related topics below and at the other links above are detailed descriptions Algebraic Topology:

Intended for use both as a text and a reference this book is an exposition of the fundamental ideas of algebraic topology The first third of the book covers the fundamental group its definition and its application in the study of covering spaces The focus then turns to homology theory including cohomology cup products cohomology operations and topological manifolds The remaining third of the book is devoted to Homotopy theory covering basic facts about homotopy
