By Ali Mili, Jules Desharnais, Fatma Mili : Computer Program Construction construction accounting computerease is the leading provider of construction accounting for contractors this all in one software is easy to use and software construction is a software languages include all forms of communication by which a human can specify an executable problem solution to a computer Computer Program Construction:

This book offers a comprehensive treatment of the process of constructing computer programs through stepwise resolutions of relational equations Unlike other books that take a logic based approach to the topic the authors derive constructive solutions to these equations by means of programming heuristics three classes of which are presented in detail sequence heuristics are used to decompose the specification of an initialization segment and the specificati Well written for the formal structure of the Programs Sung Shin South Dakota State University Original both in the material presented and in its way of presenting the material Contains numerous problems and exercises which would be useful
