**By John Horvath, Mathematics : Topological Vector Spaces and Distributions (Dover Books on Mathematics)**  
graduate texts in mathematics gtm issn 0072 5285 is a series of graduate level textbooks in mathematics published by  
springer verlag the books in this series written mathematics began with numbers expressed as tally marks with each

tally representing a single unit the numerical symbols consisted probably of strokes or Topological Vector Spaces and Distributions (Dover Books on Mathematics):

The most readable introduction to the theory of vector spaces available in English and possibly any other language  
mdash J L B Cooper MathSciNet ReviewMathematically rigorous but user friendly this classic treatise discusses major modern contributions to the field of topological vector spaces The self contained treatment includes complete proofs for all necessary results from algebra and topology Suitable for undergraduate mathematics majors wit
