By A. R. Pears : Dimension Theory of General Spaces dimension theory of general spaces download dimension theory of general spaces or read online books in pdf epub tuebl and mobi format click download or read full text pdf available on request for dimension theory of general spaces Dimension Theory of General Spaces:

A complete and self contained account of the dimension theory of general topological spaces with particular emphasis on the dimensional properties of non metrizable spaces It makes the subject accessible to beginning graduate students and will also serve as a reference work for general topologists Two introductory chapters summarize standard results in general topology and cover material on paracompactness and metrization The principal definitions of dimension follo
