for the inconvenience and hope to have it up and running again soon Surveys on Surgery Theory, Vol. 1 (Volume 1):

Surgery theory the basis for the classification theory of manifolds is now about forty years old There have been some extraordinary accomplishments in that time which have led to enormously varied interactions with algebra analysis and geometry Workers in many of these areas have often lamented the lack of a single source that surveys surgery theory and its applications Indeed no one person could write such a survey The sixtieth birthday of C T About the Author Sylvain Cappell is Professor of Mathematics at New York University and has received Sloan Foundation and Guggenheim awards Andrew Ranick is Professor of Mathematics at the University of Edinburgh He is the author of several books
