By Christine Lescop : Global Surgery Formula for the Casson-Walker Invariant. (Annals of Mathematics Studies-140) Global Surgery Formula for the Casson-Walker Invariant. (Annals of Mathematics Studies-140):

This book presents a new result in 3 dimensional topology It is well known that any closed oriented 3 manifold can be obtained by surgery on a framed link in S^3 In Global Surgery Formula for the Casson Walker Invariant a function F of framed links in S^3 is described and it is proven that F consistently defines an invariant λ of closed oriented 3 manifolds λ is then expressed in terms of About the Author Christine Lescop is Researcher in Mathematics at the Centre National de la Recherche Scientifique at the Institut Fourier in Grenoble France
