**From Brand: Chapman and Hall/CRC : Nonlinear Theory of Generalized Functions (Chapman & Hall/CRC Research Notes in Mathematics Series)** Nonlinear Theory of Generalized Functions (Chapman & Hall/CRC

Research Notes in Mathematics Series):

Questions regarding the interplay of nonlinearity and the creation and propagation of singularities arise in a variety of fields including nonlinear partial differential equations noise driven stochastic partial differential equations general relativity and geometry with singularities A workshop held at the Erwin Schrödinger International Institute for Mathematical Physics in Vienna investigated these questions and culminated in this volume of invited papers from
