**By J. K. Shaw : Mathematical Principles of Optical Fiber Communication (CBMS-NSF Regional Conference Series in Applied Mathematics)** the 3638323 to 1605548 a 1450464 of 1443430 and 1443154 in 1270287 for 640884 on 508384 that 503295 is 492114 said 487809 was 434749 with 423779 at 408185 Mathematical Principles of Optical Fiber Communication (CBMS-NSF Regional Conference Series in Applied Mathematics):

With the maturing of mobile portable telephony and the emerging broadband access market greater fiber transmission capacity will be essential in the early 21st century Since the demand for more capacity drives the development of new optics based technologies fiber optics therefore remains a vibrant area for research Mathematical Principles of Optical Fiber Communications is intended to support and promote interdisciplinary research in optical fiber communications by
