Solving Math Quadratic Equations and Inequalities:

Quadratic equations and inequalities can be a challenge to any budding mathematician. It is with this in mind that the authors, all experienced mathematicians and teachers, offer *Solving Math Quadratic Equations and Inequalities*, a booklet designed as a supplement for the high school student interested in going beyond Algebra 2 and into advanced math. In addition to more traditional approaches such as quadratic formulas and factoring, the authors offer the "About the Author" section. Karen Kusanovich, math teacher, holds a B.A. in math and an M.A. in educational leadership from San Jose State University in California. Wendy Lawson, math teacher, earned her B.S. in math and her M.A. in education from California State University, Stanford.
