By **Matthew Baker, Robert Rumely** : **Potential Theory and Dynamics on the Berkovich Projective Line (Mathematical Surveys and Monographs)** Potential Theory and Dynamics on the Berkovich Projective Line (Mathematical Surveys and Monographs):

The purpose of this book is to develop the foundations of potential theory and rational dynamics on the Berkovich projective line over an arbitrary complete algebraically closed non Archimedean field In addition to providing a concrete and elementary introduction to Berkovich analytic spaces and to potential theory and rational iteration on the Berkovich line the book contains applications to arithmetic geometry and arithmetic dynamics A number of results in the
