By Gilles Pisier : Factorization of Linear Operators and Geometry of Banach Spaces (Cbms Regional Conference Series in Mathematics) book information and reviews for isbn0821807102factorization of linear

operators and geometry of banach spaces cbms g pisier factorization of linear operators and geometry of banach spaces vol 60 of cbms regional conference series in Factorization of Linear Operators and Geometry of Banach Spaces (Cbms Regional Conference Series in Mathematics):

This book surveys the considerable progress made in Banach space theory as a result of Grothendieck's fundamental paper Resume de la theorie metrique des produits tensoriels topologiques The author examines the central question of which Banach spaces X and Y have the property that every bounded operator from X to Y factors through a Hilbert space in particular when the operators are defined on a Banach lattice a C algebra or the disc algebra and H infinity
