By **Brian Marcus, Selim Tuncel** : **Resolving Markov Chains Onto Bernoulli Shifts Via Positive Polynomials (Memoirs of the American Mathematical Society)** Resolving Markov Chains Onto Bernoulli Shifts Via Positive Polynomials (Memoirs of the American Mathematical Society):

The two parts of this Memoir contain two separate but related papers The longer paper in Part A obtains necessary and sufficient conditions for several types of codings of Markov chains onto Bernoulli shifts It proceeds by replacing the defining stochastic matrix of each Markov chain by a matrix whose entries are polynomials with positive coefficients in several variables a Bernoulli shift is represented by a single polynomial with positive coefficients p This tra
