By Herbert L Rice: The Theory and Practice of Interpolation: Including Mechanical Quadrature, and Other Important Problems Concerned with the Tabular Values of Functions; With the Requisite Tables (Classic Reprint) The Theory and Practice of Interpolation: Including Mechanical Quadrature, and Other Important Problems Concerned with the Tabular Values of Functions; With the Requisite Tables (Classic Reprint):

Excerpt from The Theory and Practice of Interpolation Including Mechanical Quadrature and Other Important Problems Concerned With the Tabular Values of Functions With the Requisite Tables Special care has been given to the preparation and printing of the tables with the hope of securing absolute accuracy At a considerable cost of labor and by wholly independent methods the computations were all made in dupli cate and in every case the tabular values are true
