By Carlos Ramos Pacussich : We Can Travel at the Speed of Light or Faster: Mathematical Proof: Einstein's Special Theory of Relativity Is Invalid

one of the most striking aspects of special relativity is that faster than light travel is equivalent to time travel this is also one of the most widely understood ever notice how christopher nolans movies interstellar inception the prestige feel like an anxiety attack well maybe thats overstating things a bit but We Can Travel at the Speed of Light or Faster: Mathematical Proof: Einstein's Special Theory of Relativity Is Invalid:

After 97 years Einstein s Special Theory of Relativity is now declared totally invalid This book indicates the precise mathematical error where Einstein s theory becomes moot The main point of Einstein s theory was that we could not travel not even near the speed of light Now that this theory is invalid we can see that travel at the speed of light or faster is indeed possible Furthermore this book proves that even with Einstein s equation of there is no conve About the Author Carlos Ramos Pacussich has been successful in the business world at Chevron SRI International PDVSA and companies that he has run or formed His passion for Physics began at age 12 and he is currently involved in research in the areas of ligh
