By Richard Schoen, Shing-Tung Yau : Lectures on Harmonic Maps (Conference Proceedings and Lecture Notes in Geometry & Topology, Vol. 2)

lectures on harmonic maps 9781571460028 1571460020 lectures on harmonic maps conference proceedings and lecture notes in geometry and topology vol 2 lectures on harmonic maps volume 2 of conference proceedings and lecture notes in geometry and topology monographs in geometry and topology no 3 Lectures on Harmonic Maps (Conference Proceedings and Lecture Notes in Geometry & Topology, Vol. 2):

From the beginning harmonic maps were studied in connection with the theory of minimal surfaces In 1985 the authors presented a series of lectures at the University of California at San Diego on the subject of harmonic maps Most of these lectures are collected here as Part I Part I of the book is devoted to harmonic maps defined on Riemann surfaces Part II was added much more recently and comprises part of the thesis of the first author the work of N Korevaar
