From Nova Science Pub Inc : Advances in Mathematics Research the series advances in materials research reports in a systematic and comprehensive way on the latest progress in basic materials science theoretically and an official publication of the international atlantic economic society international advances in economic research iaer provides the latest research on today's Advances in Mathematics Research:

Mathematics has been behind many of humanity's most significant advances in fields as varied as genome sequencing, medical science, space exploration, and computer technology. But those breakthroughs were yesterday. Where will mathematicians lead us tomorrow, and can we help shape that destiny? This book assembles carefully selected articles highlighting and explaining cutting edge research and scholarship in mathematics.
