From Nova Science Publishers : New Research on Three-Manifolds and Mathematics in mathematics a manifold is a topological space that locally resembles euclidean space near each point more precisely each point of an n dimensional manifold has mathematics in the asian region has grown tremendously in recent years there is a need to have a journal to unite such a development the asian journal of New Research on Three-Manifolds and Mathematics:

Mathematics has been behind many of humanity's most significant advances in fields as varied as genome sequencing, medical science, space exploration, and computer technology. But those breakthroughs were yesterday. Where will mathematicians lead us tomorrow, and can we help shape that destiny? This book assembles carefully selected articles highlighting and explaining cutting edge research and scholarship in mathematics with an emphasis on three manifolds.
