From Nova Science Publishers : Linear & Nonlinear Evolution Equations (Mathematics Research Developments)

linear and nonlinear evolution equations

orgentityworkdata764248602seriesmathematicsresearchdevelopmentsseriesgt; mathematics research in the school of mathematics in the broad area of nonlinear systems encompasses a wide range of applications in non Linear & Nonlinear Evolution Equations (Mathematics Research Developments):

This book presents and discusses current research in the study of linear and non linear evolution equations Topics discussed include semi linear abstract differential equations singular solutions of a semi linear elliptic equation on non smooth domains non linear parabolic systems with non linear boundaries the decay of solutions of a non linear BBM Burgers System and critical curves for a degenerate parabolic system with non linear boundary conditions
