From Springer : Nonlinear Hyperbolic Problems: Proceedings of an Advanced Research Workshop held in St. Etienne, France, January 13-17, 1986 (Lecture Notes in Mathematics) Nonlinear Hyperbolic Problems: Proceedings of an Advanced Research Workshop held in St. Etienne, France, January 13-17, 1986 (Lecture Notes in Mathematics):

The field of nonlinear hyperbolic problems has been expanding very fast over the past few years and has applications actual and potential in aerodynamics multifluid flows combustion detonics amongst other The difficulties that arise in application are of theoretical as well as numerical nature In fact the papers in this volume of proceedings deal to a greater extent with theoretical problems emerging in the resolution of nonlinear hyperbolic systems than with
