**By Giancarlo Benettin, Jacques Henrard, Sergej B. Kuksin : Hamiltonian Dynamics - Theory and Applications: Lectures given at the C.I.M.E. Summer School held in Cetraro, Italy, July 1-10, 1999 (Lecture Notes in Mathematics)** Hamiltonian Dynamics - Theory and Applications: Lectures given at the C.I.M.E. Summer School held in Cetraro, Italy, July 1-10, 1999 (Lecture Notes in Mathematics):

This volume compiles three series of lectures on applications of the theory of Hamiltonian systems contributed by some of the specialists in the field The aim is to describe the state of the art for some interesting problems such as the Hamiltonian theory for infinite dimensional Hamiltonian systems including KAM theory the recent extensions of the theory of adiabatic invariants and the phenomena related to stability over exponentially long times of Nekhoroshev From the Back Cover This volume collects three series of lectures on applications of the theory of Hamiltonian systems contributed by some of the specialists in the field The aim is to describe the state of the art for some interesting problems such as the H
