Mathematical Modeling, Simulation, Visualization and e-Learning: Proceedings of an International Workshop held at Rockefeller Foundation' s Bellagio Conference Center, Milan, Italy, 2006:

This book features articles written by some of the most prominent leading applied mathematicians as well as young and promising ones The common objective of these articles is to present an important issue which is currently widely discussed in scientific investigation with major human economic or ecological implications Each article is as deep as an expert lecture but is also self contained so that even isolated scientists with limited resources can profit greatly
