0 of 0 review helpful excellent By Jes uacute s I have no complain about this article I think it was an excellent addition Sending worked perfectly would recommend thanks 0 of 0 review helpful a classic By Fabio Indeed an elegant monography now 37 years old One may find the same material included in text books of dynamics and or ergodic theory For this printing of R Bowen s book J R Chazottes has retyped it in TeX for easier reading thereby correcting typos and bibliographic details From the Preface by D Ruelle Rufus Bowen has left us a masterpiece of mathematical exposition Here a number of results which were new at the time are presented in such a clear and lucid style that Bowen s monograph immediately became a classic More than thirty years later many new results have been proved i From the Back Cover nbsp For this printing of R Bowen s book J R Chazottes has retyped it in TeX for easier reading thereby correcting typos and bibliographic details From the Preface by D Ruelle Rufus Bowen has left us a masterpiece of mathematical
