Infinity:

In case two equal unlike parallel forces acting in the same plane cancel each other two established theorems in mechanics show that the X Co ordinate of the resultant force is equal to 0 0 and the Y Co ordinate of the resultant force is equal to 0 0 where the value of 0 0 is indeterminate while the values range from negative infinity to positive infinity but at the same time each and every value coincides with 0 We may observe that the above condition and the above About the Author T A Radhakrishnan My father Thalekkara Karappunni Appukuttan was the Manager of the Indian Oxygen Company in Ceylon My mother Poliyath Sankaran Lakshmi Bai became pregnant while she was at Ceylon She came to India and gave birth to me on 3r
