By S. Buonchristiano, C. P. Rourke, B. J. Sanderson : A Geometric Approach to Homology Theory (London Mathematical Society Lecture Note Series) a geometric approach to homology theory london mathematical society lecture note series download book a geometric approach to homology theory london mathematical about london mathematical society lecture note series 409 results in london mathematical society lecture note the rigorous

mathematical theory of the A Geometric Approach to Homology Theory (London Mathematical Society Lecture Note Series):

The purpose of these notes is to give a geometrical treatment of generalized homology and cohomology theories The central idea is that of a mock bundle which is the geometric cocycle of a general cobordism theory and the main new result is that any homology theory is a generalized bordism theory The book will interest mathematicians working in both piecewise linear and algebraic topology especially homology theory as it reaches the frontiers of current research in
